

### **What is qboxanalysis?**

qboxanalysis is a carcass analysis application offering real-time 100% accurate reporting on producer herd performance from processor supplied slaughter data. Using simple and easy to use web browser technology, the system offers UK producers instant performance indicators on how their batch of pigs or herd is performing.

### **What does the system do?**

Each of the application modules deliver accurate carcass performance analysis direct to the producer's computer. Being web browser based, there is no software to install and no data input required by the producer.

### **What are the features and benefits of the system?**

The table below details the features for each of the qboxanalysis application modules

Version of qboxanalysis	Lite	Gold	Gold+
Features			
Easy to use simple Web browser based system	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Multi-user licensing as standard	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Carcase performance analysis and reporting	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Health and condemnation impact reporting	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Meat yield output analysis over 12 month rolling period		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Feed usage monitor		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Advanced real-time charting	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
What If predictor		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Advanced What if scenario			<input checked="" type="checkbox"/>
Contract performance analysis		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Advanced Contract comparison analysis			<input checked="" type="checkbox"/>
Multiple unit benchmarking		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
RMIF benchmarking module	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
RMIF primenumbers integration	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Online support services included in price	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

The benefits of having real-time business analysis data "at your fingertips" in any business is well documented. qboxanalysis provides herd performance analysis at the click of a mouse button. Simple and easy to use and with no software to install on your computer qboxanalysis leads the way in innovative solutions to your industry.

### **What information is required to run the system?**

qboxanalysis requires only minimal information from the producer. The producer's own Slap mark(s), the Processor(s) to which the pigs are sent and a completed data release form (to the processor) instructing them to release non-financial data to qboxanalysis.

### **Output**

With a comprehensive charting and reporting module included, qboxanalysis provides detailed analysis on many key indicators considered critical in today's UK pig production. Indicators such as meat yield, health and condemnation and their respective impact on producer revenue. How the herd is performing against processor defined contract parameters and comparative benchmarking against industry and regional indicators are instantly available.

### **How is it accessed?**

All you need is a personal computer and internet connection and you are halfway there. Qboxanalysis uses an open licensing mechanism which means that the producer may nominate as many users to have access to their data as they so wish (Vet, nutritionist, herdsman to list but a few) and as it is web based, there is no software to install and can be used on any computer with Internet access.

### **Is it a service provision with technical back-up?**

Technical backup and support for application related issues is available free of charge as part of the package. Also included (for Gold and Gold+ users) is the opportunity to influence the future development of the application, so if you feel qboxanalysis could be improved – tell us how.

### **Is it a system available for purchase?**

qboxanalysis is available under an annual license scheme, for pricing and further information or to discuss how qboxanalysis could help your business please contact us on 01888 545217 or email us at [info@qboxanalysis.com](mailto:info@qboxanalysis.com).
