Download the *free software/demo* today available in www.agritecsoft.com, and see why Agritech is becoming the leading company in pig management software.

HOW CAN PORCITEC HELP YOU?

User-friendly

Use one powerful solution that's quick to deploy, easy to use, and flexible enough to support your needs. Porcitech's unique data entry system eliminates hours of tedious keystrokes. Your current data can be quickly and easily converted with no data loss, ensuring a smooth transition.

How your farm is doing at a glance

Choose from more than 110 standard reports to monitor herd performance and productivity. Troubleshoot areas that need improvement. Print management lists that make your job easier. Even customize reports to meet your specific needs.

Affordable price

Porcitech is designed to work in small and large farms, including multiple-farm companies and bureaus. It is a powerful yet cost-effective solution that can be tailored specifically for your company. It can support customization and add-in software, to meet industry or other specific needs.

Porcitech distributor for UK & Ireland: PigFocus Ltd.

MAIN FEATURES

Developed by an international group of consultants, veterinarians, engineers, and pig producers, some of the largest farms in the world are now using Porcitech 2014 for their livestock management.

- ✓ **Breeding Herd Reports:** Porcitech includes an extensive list of reports for the routine management and monitoring of your breeding herd.
- ✓ **Growing Management:** Pig movements, feed usage, and growth performance.
- ✓ **Feed Management:** Ration formulation, feed budgets, and growth curves.
- ✓ **Financial Management:** Incomes, expenses, sales, account charts, summaries.
- ✓ **Custom Reports:** Modify existing reports or create your own. Database wizards help you analyze your data in various formats such as breakdown, data list, histogram, and cross tabulation. You can also use Crystal Reports, MS Access, SQL and other tools.
- ✓ **QuickLink:** QuickLink or drill down lets you quickly see the data behind the numbers in a report.
- ✓ **Fast Data Entry:** Choose from Porcitech's multiple data entry systems. Work the way you want to work. An innovative data entry grid works like a spreadsheet, saving you thousands of tedious keystrokes. New Fast Entry system eliminates clicking multiple dialogs to enter data. All events can be entered into one screen.
- ✓ **Handheld Computer:** Porcitech is compatible with a wide variety of handheld devices and electronic identification systems. Access the animal file and enter daily events at the barn level.
- ✓ **Designed Using Industry Standards:** Porcitech uses Client/Server technology for database, Windows for OS, NAIS for traceability and NPB for terminology and formulas. The database is multi-user network compatible, with large volume capacity, and rock-solid stability and reliability.
- ✓ **Global Community:** Porcitech is translated in 7 languages and the free edition has been downloaded over 15,000 times. It is installed in some of the best farms all over the world. Porcitech is currently being used in both small farms (less than 50) and large farms (350,000 sows).
- ✓ **Scalable: Mobile, Desktop and Web:** Porcitech can work in individual farms, as well as corporate and bureau centers: Porcitech desktop is a stand-alone program that can be installed in the farm computer and run independently without Internet access. Porcitech mobile is the solution for handhelds and tablets. For multiple farms, or for companies with multiple locations, Porcitech Online is the web-based solution. No installations are required, just open the Internet browser and all data is available, anytime, anywhere.
