

Post-Cervical AI – Is it time for another look?

What: Post-Cervical Artificial Insemination (PC AI), has been around for a long time, but its use has grown dramatically over the last few years and now millions of sows are served worldwide by this method. Why? We will hear from:-

Raquel Ausejo, Veterinary Technical Department, **Magapor S.L.**, who have developed a PC AI catheter.

Ed Sutcliffe, Geneticist, **Data to Decisions**, outlining the performance advantages to be gained from this technique, and

Producer feedback, from a unit who has as recently tried them for the first time.

Date: Wednesday 9th March 2016

Location: Gypsy Hill Hotel, Gypsy Hill Lane, Exeter, EX1 3RN

Register: Please contact Angela Cliff by Friday March 4th on mobile 07967 788 484 or email angela.cliff@ahdb.org.uk

Please arrive by 18.00 for an **18.30 start**. We will aim to finish at approximately 20.30. A buffet and hot food will be provided at the end of the evening.

The meeting is PIPR registered.
