

Pig Health Scheme

Healthy pigs for healthy profits

AHDB

Under the Pig Health Scheme, trained veterinary assessors monitor pigs at slaughter for prevalence and severity of disease.

Why should I join?

Members receive feedback on 12 different health conditions in the form of three reports :

- Individual batch report
- Unit comparison report
- Time comparison report

These can be used to help make decisions on farm, in conjunction with your vet.

How do I sign up?

Membership of the scheme is FREE to all producers, just sign up through your Pig Hub account: www.pighub.org.uk

For help and information, call 024 7647 8893.
