

Shropshire Pig Club

How do European Pig Producers Reduce Their Antimicrobial Usage?

What: ForFarmers have extensive experience of how units in Europe have adapted to reduce the requirement for in feed medication and overall amount of antimicrobials used. There is an ever increasing pressure on us to do the same and so the evening will focus on the strategies they have recommended and employed.

Who: Suitable for farm managers and stock people

Date: 7:00pm Thursday, 14th January 2016

Location: The Bear Hotel, Drayton Rd, Hodnet, TF9 3NH

Register: Contact Angela Cliff on 07967 788 484 or email angela.cliff@ahdb.org.uk

Please arrive by 18.30 ready for a 19.00 start.

Food will be provided through the evening and we will aim to finish at approximately 21.15. The meeting is PIPR registered.
